A NARROW ESCAPE. - Yesterday two miners, J. Percival and P. Clancey, were at work in the incline of the Silver Peak. repairing the ladders, when that on which they were standing gave way, allowing them to fall down the incline, which is very steep. Luckily one fell but about fifteen, the other about forty feet. The latter (Percival) managed to eatch on the timbers of the incline, though he had received a severe scalp wound and experience. atch on the timbers of the incline, hough he had received a severe scalp wound and severe contusions of the side wound and severe contusions of the side and arm. Clancey escaped with much lighter injuries. The men were taken out and brought to town, where Dr. Deal rendered the necessary medical as-sistance. Percival, though quite severely hurt, will, we hope, soon be about. Mr. Clancey will probably be all right in a few days.

TUMBLING -Stocks have been on the downward grade for sometime, but every one thought they had about reached the lowest limit several days since, but it appears not. Now, the inquiry among the boys, "Have you sold your Ophir?" intimating that those who have not are badly sold. That two dollar assessment was the straw that broke the came's back. It was not the assessment so much.

ting has proceeded quite rapidly. The suction pump is again in place, while the necessary attachments and alterations for the pump rod and column have been made. Last evening when we were at the works great progress had been effected in repairing damages and get-ting ready for a fresh start, which was expected to be made in a few hours, During the stoppage the water had re-During the stoppage the water had re-turned to about its former level in the shaft.

PERSONAL .- Yesterday, by the Salt Lake stage, Mrs. Day, the lady of Capt-H. H. Day, the esteemed Superintend ent of the Raymond & Ely mine, re-turned to Pioche. Mrs. Day was accom-panied by her daughter, Mrs. Bierce and children. Mr. White, proprietor of the Salt Lake stage line, arrived by yester-day's stage. By the same conveyance arrived Mr. E. B. Shaw, of the firm of Cutting & Co., canned fruit dealers, San Francisco.

THE ball of the Independent Social Club turned out as was expected-a success in every respect. A large and gay company attended, who enjoyed them-selves exceedingly. The gentlemen managing the party did their best to pro-mote the comfort and enjoyment of all their guests, and succeeded admirably.

and inviting cold lunch, to whice many friends did abundant justice.

LATE last night we were informed by Mr. T. J. Andrews, the foreman of the Raymond & Ely, that the pump would start sometime before this morning.

BASE BULLION. - Nine tons of base bullion were brought in from Bristol yesterday. It was stored at the Dexter Stable.

THE Hamilton pony rider reached town yesterday afternoon at 5 o'clock, but brought no California mail.

THE Salt Lake stage reached town yesterday morning at 9 o'clock.

SAN FRANCISCO, May 19. - The members of the Pacific Stock Board held a meeting last evening for furthering the preparations for the commencement of business at an early day. A large num ber of additional applications for membership were received, from which 27 names were selected, bringing the roll up to 78, and leaving only two seats to be disposed of. These members pay in five thousand dollars each. The new beard starts with a round capital of \$375,000. Following is the roll of officers: President, E. J. Baldwin; Vice. President, Gen. Geo. A. Dodge; Treasure, George C. Hickox: Secretary, Andrew J. Moulder. The temporary place drew J. Moulder. The temporary place of business has not yet been announced. A bold project for the civilization of Africa is announced under the sanction of Captain Sir John H. Glover, Mr. R. N. Fowler, and other well known gentismen. This is the formation of a canal for commercial purposes, from the month of the river Belta on the Atlantic, in the neighborhood of Cape Juby and Cape Bajador, opposite the Canary Islands, to the northern bend of the Niger at Timbuctoo, a distance of 740 miles. Such as the northern bend of the Niger at Timbuctoo, a distance of 740 miles. Such as the northern bend of the Niger at Timbuctoo, a distance of 740 miles. There has been arrived out of the ground formerly held by the Baltimore Consolidated, while a part of the ground formerly held by the Baltimore Consolidated there is a great hollow, supposed to be 250 feet below the level of the Atlantic, which was probably at one time covered by the sea. This low country is separated from the coast by a broken ridge of about thirty miles, through which the river Belta runs for twenty-five miles, so that all that would be necessary in order to reach it is to deepen the channel of the Atlantic fall into the vast arid basin. RATS IN THE MINES.—It is a fact not generally known that the galleries and drifts of most of the Comstock silver mines are tenanted by thousands of rats, which the miners will not attempt to kill under any circumstances. The Belcher mine absolutely swarms with rats, who hold high carnival in the deserted drifts and among the decayed timbers. They live on the refuse of the miners lunders. Where several bundred men are employed and eat their dinners from their lunch buckets, which they carry down into the levels with they carry down into the levels with them, the pieces of meat, bread and other articles thrown away would soon become offensive were they not removed or destroyed. Here the rat steps in, and like the vulture which walks about the those thousand worshipers of Plymouth like the vulture which walks about the streets of a tropical city unharmed and feeds on carrion, he soon removes all traces of the feast, even the bones being picked clean. For this reason the miners do not molest the rats, and they have free license to run up and down the shafts, scale the timbers and hold court in the very center of the big bonanza.—
